It will be remembered that soon after the fire which destroyed the Gay building, a half interest in the property was acquired by Mayor W. M.

For some time it seemed that rome agreement might be reached whereby the interested parties would tear down the present structure and erect on the site a modern steel office building. When called upon about 4 o'clock yesterday afternoon, Alex Rice, president of the Standard Club, had not been served with the papers but, on being informed that the Standard Club is under indictment, he was free in talking. He was seated in his store with Nathon Lobman, a director of the club, and both officers regarded the indictments lightly.

"Under our charter," said Mr. Rice, "we have a perfect right to sell anything we want to at our club and on any day. If there is an indictment, it will amount to nothing and I am sure it will give us little concern. Our charter was drawn by the late Tennent Lomax, who assured us that, under its operation, we could do almost anything."

It is understood that the members and officers of the Beauvoir Club take practically the same view as the Standard Club officers, although no expressions have been heard. It is presumed by them that their charter confers special privileges which cannot be construed as violations of the law.

At the next meeting of the Board of Directors of the Beauvoir Club, it is understood, the matter will be brought up and steps will be taken for the employment of counsel to defend the organization in the City Court.

The Beauvoir Club is recognized as one of the leading clubs of the State and one of the most preminent clubs

one of the leading clubs of the State and one of the most prominent clubs of the South. It has a membership of about 200. and occupies a handsome home on South Perry street.

The Standard Club is composed exclusively of Jewish citizens and, in recent years, this organization has built and equipped one of the handsomest and most complete club houses in the South. It is located at the corner of Montgomery and Moulton streets. The Standard Club has a membership of about 300.

The most representative citizens of Montgomery are members of one or the other of the clubs.

While the cases against these organizations will be tried in the criminal division of the City Court, they are civil suits, owing to the fact that both clubs are corporations, and no individual can be reached by an indictment.

Whose Say-so is Best?

With nearly all medicines put up for sale through druggists, one has to take the maker's say-so alone as to their curative value. Of course, such testimony is not that of a disinterested party and accordingly is not to be given the same credit as if written from disinterested motives. Dr. Pierce's medicines, however, form a single and therefore striking exception to this rule. Their claims to the confidence of invalids does not rest solely upon their makers' say-so or praise. Their ingredients are matters of public knowledge, being printed on each separate bottle wrapper. Thus invalid sufferers are taken into Dr. Pierce's full confidence. Scores of leading medical men have written enough to fill volumes in praise of the curative value of the several ingredients entering into these well-known medicines.
